

Dr. Rajesh Kumar, IPS
Member Secretary

West Bengal Pollution Control Board
(Department of Environment, Government
of West Bengal)

PL-752
28/7/22

Memo No. 2262/4A-21/2005 (Part-X)

Dated : 27/07/2022

ORDER

In consideration of Ease of Doing Business Initiatives of GoWB and existing “**Industrial Siting / Locational Policy in West Bengal**”, the WBPCB has decided that consideration for establishment of the following activities within municipal areas of KMA and municipal areas of Burdwan district is location specific and will be decided by the Board:

1. Gold and silver smithy units using greater than 1.0 liter sulfuric acid / nitric acid per month;
2. Building and construction projects >20,000 sq.mtr. built up area (waste water generation \geq 100 KLD).

All such units should set up an appropriate Pollution Control Device/System so that the nearby residents or other establishment do not face any difficulty.

Further, Central Pollution Control Board (CPCB) Committee on categorization has notified a new category vide order dated 12.01.2021 as "Building and construction projects having built-up area upto 20000 sq.m. and wastewater generation \geq 50KLD" under ORANGE category and the West Bengal Pollution Control Board (WBPCB) has adopted the new categorization.

In consideration of above, existing activity “Building and construction projects upto 20,000 sq.mtr. built up area” under ‘Exempted’ category shall be substituted by “**Building and construction projects having wastewater generation <50 KLD**”.

This order will take immediate effect.
